The Greenfield Police Department has identified the person responsible for offering the Maple

Grove student a ride to school yesterday morning. The person is a well-intentioned, neighborhood resident who offered the student a ride to school rather than having her walk to school because of the cold temperatures yesterday. While the invitation was well-intended, it is a good opportunity to remind your children about the dangers of getting into cars with people they do not know. This student handled the situation perfectly by refusing to get into the car, getting to safety quickly, and alerting an adult as soon as they arrived at school.

The School District of Greenfield would like to sincerely thank the Greenfield Police Department for their rapid response, thorough investigation, and timely wrap-up to this matter.
