GHS Hawks' Summer School offers students the opportunity to grow their learning during the summer months. An added benefit is the increased flexibility for course selections during the regular school year. Courses offered during the summer are the same courses offered as during the traditional school year. Successful completion results in students earning 0.5 credit per course.

This summer, for credit acceleration, we will offer (in-person): Physical Education 9, Health 9, Economics and Trigonometry. All courses have definite enrollment limits.
