

Benefits of SCC-U

The program provides students with real-life exposure to a growing, family-owned manufacturing company that feels employees are their most valuable asset. This exposure allows students to help select a career that meet their interests, while getting paid. Upon completion of the summer program, SCC makes recommendations to each student on how they can achieve their career goals and the pathways best suited to each student.

All classes are held Monday – Friday, 7:00 am – 3:30 pm at our location in Waukesha.

What is SCC-University

SCC-U, sponsored by Superior Crane Corporation, is a community outreach, paid, training program for students at least 16 years and older, preferably enrolled or ready to be enrolled in a dual enrollment education program. Over 16 weeks of the summer, the program offers hands on training to the following trades: Welding, Machining, Service/Maintenance Repair, Electrical, Engineering and a solid foundation to Life and Financial skills.

Our team of experts are here to help you develop successful strategies today for a financially secure tomorrow.
