

Important Free and Reduced Information during the government shutdown.

Families that have already qualified for free or reduced meals will continue to receive this benefit during the government shutdown.

Although SNAP benefits are suspended and new applications for SNAP benefits are not being processed, free and reduced meal applications can still be submitted and processed through the Greenfield Food Service Department.

Federal employees that have been furloughed or have a decrease in hours may submit a Free and Reduced Meal Application based on their current household income. This may be zero while in furlough. Once a family has been approved, meal benefits will continue throughout the school year.

Reminder, meal applications can be filled out at any time during the school year and as many times as they need, especially if there is a decrease in household income or increase in household size.

Applications can be found at <https://www.myschoolapps.com> or click on [Free and Reduced Application](#) for a printable version.

For additional food resources, click on: [Greenfield Food Resources Flyer.pdf](#).

Other fun facts from the food service department:

Breakfast is free for ALL students.

Greenfield Food Service is providing a free fresh fruit and vegetable snack on Tuesdays and Thursdays to all elementary students. We hope you are enjoying some of your favorites and trying new items. The week of November 3rd we will have fresh cucumber slices and grapefruit.

Please contact the food service office if you have any questions.
